FOREWORD

The following chapters suggest substitutions and economies and it is their purpose to enable one to obtain results without the waste of materials in experimental attempts in the home kitchen.

Most of the recipes have been given to audiences on the slips used at demonstration lectures, but are here assembled for every day use.

The recipes are not all original but have all been tested and in many cases slightly changed to meet personal methods and tastes.

MEASUREMENTS

Accurate measurements are necessary to insure success.

Level measurements are always to be used.

The cup should have the half, third and quarter marked on it.

One-half spoonful should be taken lengthwise and not crosswise of the spoon.

White flour should be sifted before measured.

c — cup
tbsp — tablespoonful
tsp — teaspoonful

All bread recipes are in quantity for one loaf, all muffins for 9 to 12 muffins, and all other quantities the amount needed for the average family of four adults.

NOTE

In some recipes detailed instructions as to the combination of ingredients have been omitted, especially to avoid repetitions. Where directions are not given and any special order is necessary to insure success, combine in given order, reading across each line. Example : Cream Salad Dressing, page 47. Into oil, stir flour, salt, mustard, pepper and sugar. Add milk, then beaten egg and lastly, vinegar.

OUR PROBLEM

At this critical time our country is called upon to supply food for her men in service, including soldiers in camps, sailors in the navy and all men "over-seas" as well as the people at home. Joined in the world war, we also have a duty towards our allies and many labor and transportation problems add to the seriousness of the situation.

OUR SOLUTION

"True economy does not consist in going without but in making the most of what one has."

Only through the most careful conservation of all food materials can we solve this problem and meet this demand.

Conservation does not mean going without the necessities but by avoiding all wastes, practicing true economy and using substitutions, study and plan so that neither children nor adults become examples of mal-nutrition. A person's best asset is a well nourished body and a nation's asset a healthy people.

As a nation we are asked to save the

MEATS
FATS
SUGAR

We must use the foodstuffs that cannot be satisfactorily transported and release those which our ships can best carry and which can be most easily prepared in quantities.

We have not primarily a financial problem but it is our patriotic obligation and it is the housekeepers' part in the war to join a volunteer army and meet these demands, at the same time help to avoid rations or restricted diets and stabilize prices.

RELEASE WHEAT FLOUR

"Urge everyone to lessen wheat consumption by at least one-third, through substitutions."—Food Administration.

Use corn, rice, oats, barley, buckwheat and mixed cereal grains. Graham and entire wheat do not lessen wheat consumption much.

The following recipes release wheat flour at least thirty per cent. In many families a larger proportion of substitution will be accepted but some wheat with its gluten content is necessary for best results in yeast breads and is legitimate as a "binder".

Barley flour may be used for part of the wheat flour measurement when a greater release of wheat is desired and thus a fifty per cent substitution gained and good results assured in these recipes following this principle.

Rice flour and white corn flour are also on the market.

YEAST BREADS

STANDARD YEAST BREAD

1 c. liquid (½ c. milk and ½ c. water or 1 c. water)
1 tbsp. shortening — 1 tsp. salt
¼ Fleischmann yeast cake — 2 tbsp. sugar or molasses
3 c. flour

Mix liquid, shortening, molasses and salt. When this mixture is lukewarm, add yeast, dissolved in ¼ c. lukewarm water, and lastly, the flour. Let rise to double its bulk and knead well. Shape into pan and when again double its bulk, bake 50 to 60 minutes.

VARIATIONS

For a sweeter bread, add another tablespoonful molasses or sugar.

The quantity of flour will vary slightly with different kinds.

Add enough for stiff dough so that little more is needed when bread is handled and shaped for the pans.

The three cups of flour may be varied in following ways, all the other ingredients as in standard recipe.

RYE BREAD

1 c. rye flour
2 c. white flour

RYE BREAD No. 2

1 tbsp shortening — 1 tsp salt
1 tbsp sugar — ½ c liquid
¼ Fleischmann yeast cake in ¼ c water

Let this rise, and when sponge is light add white flour to knead (about 2 c). Let rise, shape, let rise and bake.

PRUNE AND NUT BREAD

½ c prunes — 1 c cold water

Soak over night and cook and stone. Add water to prune-juice to make 1 cup. When boiling add 1

cup rolled oats. After standing an hour add :

¼ c sugar
1 tsp salt
1 tbsp shortening
¼ Fleischmann yeast cake
Chopped prunes and entire wheat flour to knead.

Let rise, shape, put in pan. Let rise and bake. Add nuts if desired.

POTATO BREAD

¾ c liquid
1 tsp salt
¼ Fleischmann yeast cake in ¼ c lukewarm water
1 c mashed potato
1 tbsp shortening
2 tbsp sugar
2 c white flour

RICE BREAD

½ c rice
1 tsp salt
2 c water

1. 1 c mashed potato for ½ c flour and ½ c milk.
2. Use barley flour, rice flour, oat flour or potato flour for at least thirty to fifty percent for white flour.
3. Use ½ c sugar and ½ c corn syrup for 1 c sugar.

HOME-MADE BAKING POWDER

1 c soda
1 c cornstarch
2 c cream of tartar

Mix and sift these three ingredients eight to ten times and one quart of reliable home-made baking powder will result.

RELEASE SUGAR

Use one-half normal consumption, use at the rate of 3 lbs. per person per month. Food Administration.

Molasses, honey, maple products, corn syrup, commercially combined syrups, rock candy syrup and jams or sweet spreads furnish substitutions. By cooking properly, often the natural sugar in fruits can be used as a means of cane sugar conservation.

Dark corn syrups are molasses substitutes and white syrups sugar substitutes.

DESSERTS

HONEY SOFT CUSTARD

2 c milk
2 yolks
⅓ c honey
⅛ tsp salt

Use two eggs when whites are not needed for another receipt. Use as desserts with chopped nut garnish, as sauce for puddings or poured over sliced fruit.

HONEY BREAD PUDDING

1 c bread crumbs
⅓ c AirlinE honey
¼ tsp salt
1 pt milk
2 yolks
2 tbsp oleo
½ c nut meats

The meats may be omitted. Raisins may be added. If the honey flavor is not desired, add spices. Meringue 2 whites beaten and sweetened with 1 tbsp honey.

RASPBERRY SAMP

½ c samp
2½ c milk or part water

Boil till liquid is taken up by samp which requires long, slow cooking. Add one tbsp oleo, one tsp butter, just as served; one-half tsp salt, one-half c rich jam or one-half c maple syrup for maple samp.

CHOCOLATE PUDDING

1 c bread crumbs
⅓ c sugar
2 oz. sweetened chocolate
½ tsp salt
2 c milk
1 egg
½ tsp vanilla

If unsweetened chocolate is used ⅓ c more sugar is needed. Blend 10 minutes in double boiler. Bake 20 minutes.

MAPLE BLANC MANGE

5 tbsp corn starch
¼ tsp salt
1¼ c maple syrup
1 qt. scalding milk

Cook 20 minutes. Mold and serve with top milk or cream.

FRUIT CORNSTARCH PUDDING

1 c fruit syrup
¼ tsp salt
1 c milk
4 tbsp cornstarch
1 egg if desired

If peach is used the slices may be placed in moistened dish and pudding poured in and cooled. Smaller fruit may be stirred into mixture.

MAPLE CUSTARDS

4 eggs
½ c maple syrup
4 c milk
¼ tsp salt
Grating nutmeg

Bake in custard cups in moderate oven about 20 minutes.

HONEY CUSTARDS

In above custard use ½ c AirlinE honey instead of syrup and add ¼ tsp cinnamon.

FRUIT SPANISH CREAM

1½ tbsp Knox gelatine
¾ c boiling water
3 yolks
2 c scalded milk
3 whites
¼ c cold water
½ tsp salt
2 tbsp white corn syrup
1 tsp vanilla
¾ c fruit

To gelatine and cold water, add boiling water. Make custard of other ingredients, except whites. Combine all, mold after careful stirring. Dates, figs or prunes may be used.

COTTAGE PUDDING

2 tbsp shortening
2 tbsp honey or ¼ c sugar
1 c flour
½ tsp salt
1 egg
1 tsp baking powder
½ c milk
Speck nutmeg
⅛ tsp cinnamon

Serve with honey or other pudding sauce.

TAPIOCA PUDDING

½ c pearl tapioca
½ c sugar
2 c water
½ tsp salt

Soak tapioca several hours Drain and cook all in double boiler. Before tapioca is transparent add ½ c cooked fruit. Fruit juices can be used for 1 c of water and half the sugar omitted.

CORN MEAL AND FIG PUDDING

1 c corn meal
4 c milk and water

Cook 20 minutes in double boiler. Cool and add

2 yolks
1 c chopped figs
2 c milk
1 tsp salt
1 c molasses
2 whites

Mix and bake for 3 hours or cook in fireless cooker 6 hours. Other fruit may be substituted.

DATE CUSTARD

1 lb dates
2 eggs
1 qt. milk
¼ tsp salt

Simmer dates in milk. Press through colander and add eggs. Bake in cups or use for pie filling,

APPLE CUSTARD PUDDING

Place 4 slices of bread in baking dish. Cut two pared and cored apples in halves; place on bread and add custard mixture of

2 c milk — 2 eggs
4 tbsp AirlinE honey — ¼ tsp salt — ½ tsp cinnamon

Bake till custard is firm and fruit soft.

NORWEGIAN PRUNE PUDDING

¾ c cooked and finely cut prunes
1⅔ c water — 2½ tbsp cornstarch
⅛ tsp salt — ½ c sugar
1 in. stick cinnamon if desired, cooked with prunes.

Cook in double boiler until thick. Chill and serve cold with custard sauce.

CHOCOLATE SOUFFLE

2 tbsp fat — 3 tbsp flour — ¾ c milk

Cool slightly and add

1½ oz sweetened chocolate — 3 yolks
3 whites — 1 tsp vanilla

Bake in cups for twenty minutes.

PRUNE HONEY PUDDING

1½ c prunes — 1 c milk
1 c bread crumbs — Juice half lemon
3 tbsp AirlinE honey — 2 tbsp fat
1 c flour — 2 tsp baking powder
1 tsp salt — Grating nutmeg

Let prunes stand half hour, covered with warm water. Drain, stone and cut. Mix pudding and steam two hours.

MAPLE WALNUT TAPIOCA

1 pt milk — 2 tbsp Minute tapioca
2 yolks — ½ tsp salt
⅔ c maple syrup — 1 c walnut meats

Heat milk. Stir in tapioca. Cook 15 minutes, add yolks and stir three minutes. Let cool, add syrup and nuts and serve with whipped cream and nut garnish.

COCOANUT CREAM

2 c milk
3 tbsp AirlinE honey
¼ c cold water
2 eggs whites
2 egg yolks
½ envelope Knox gelatine
1 c shredded cocoanut
¼ tsp salt
1 tsp vanilla

Add soaked gelatine to hot custard made with the milk, egg yolks and honey. Fold in other ingredients and chill in mold lined with orange sections if desired.

HONEY CORNSTARCH PUDDING

2 c milk
½ tsp salt
½ tsp cinnamon
3 tbsp honey
4 tbsp cornstarch
⅛ tsp nutmeg

Cook in double boiler.

PINEAPPLE DAINTIES

1½ c pineapple syrup
2 tsp gelatine
1 tbsp lemon juice

Dissolve soaked gelatine in some of boiling syrup. Mould in 4 small cups. Serve with a slice of pineapple first on plate, jelly, which may be tinted pink on top and garnish of cream or marshmallows.

RICE PUDDING

4 c milk
⅛ c molasses
1 tbsp fat
½ c rice (uncooked)
½ c tsp cinnamon
½ tsp salt

Bake as Indian pudding, about 2½ to 3 hours. Stir occasionally. One fourth cup sugar or 3 tbsp honey may be used in place of molasses.

CREAMY RAISIN PUDDING

4 c milk
½ c AirlinE honey
½ tsp salt
2 tbsp pearl tapioca
2 tbsp uncooked rice
½ c raisins

Bake in slow oven for 3 hours, stirring occasionally. Serve hot or cold.

STEAMED SAGO PUDDING

¼ c sago
¾ c potato flour
¾ tsp baking powder
1 tbsp butter substitute
¼ tsp salt
¾ c raisins

Soak sago over night. Steam pudding 2 hrs. Serve with sweet sauce.

APPLE SAGO

½ c sago
½ c sugar
3 c hot water
½ tsp salt
6 apples
¼ tsp cinnamon

Soak sago 1 hr. in cold water to cover. Cook in the hot water until transparent. Core and pare apples. Place in greased baking dish, add sugar and spice. Pour sago over apples and bake until apples are soft. Serve with milk. One half c. pearl tapioca or ⅓ c prepared tapioca may be used in place of sago. Apples may be sliced if desired.

MAPLE SPONGE

2 c maple sugar
1 envelope Knox gelatine
2 stiff egg whites
½ c hot water
1½c cold water
1 c chopped nut meats

Boil maple sugar and hot water 10 ms, add gelatine soaked in the cold water. When nearly set add egg whites and nuts. Mold and serve with soft custard made with

1 c milk
¼ tsp salt
2 egg yolks
2 tbsp sugar

COLD RICE PUDDING

¾ tbsp Knox gelatine
¼ c boiling water
¼ c sugar
¼ c cold water
⅓ c cooked rice
½ c nuts or fruits
1 c whipped cream

Dissolve soaked gelatine in hot water. Use nuts, raisins, figs, prunes or dates or combinations. Mold in small dishes. Milk may be used instead of cream by adding ¼ tbsp more gelatine.

SWEET SAUCES

LIQUID SAUCE

1 tbsp oleo
1 tbsp flour
1 c hot water
1½ tbsp molasses
Grated nutmeg
½ tsp salt
½ c sugar

Cook in given order except nutmeg. Boil thoroughly; add nutmeg before serving.

MAPLE SAUCE

1 c water
1 tbsp cornstarch
⅓ c maple corn syrup
1 yolk
¼ tsp salt
1 white

Boil water and cornstarch, pour on to syrup and yolk. Cook slightly, fold in stiff white and serve.

HONEY SAUCE

In above sauce substitute ⅓ c honey for maple corn syrup or maple syrup.

FRUIT SAUCE

1 c rich fruit syrup
1 tsp arrowroot

Mix arrowroot with ¼ c cold syrup, add to ¾ c hot syrup and when boiling point is reached a clear sauce results. Syrup from canned pineapple, peach. raspberry, strawberry or other fruits may be used,

MOCK CREAM

1 tbsp cornstarch
1 tbsp sugar
1 c milk
1 egg white
1 tsp vanilla

Heat milk in double boiler. Mix sugar and cornstarch. Cook with milk 10 ms and cool. When ready to serve add vanilla and stiff white.

BROWN SUGAR SAUCE

1 c brown sugar
½ c water
¼ tsp vinegar
1 tbsp cornstarch

Cook until slightly thickened and use hot or cold.

WAR-TIME CONFECTIONS

POP-CORN BALLS

1 c molasses
1 tbsp oleo
1 tbsp sugar
¼ tsp soda
½ tsp salt

Boil molasses and oleo 3 minutes. Add sugar. Boil till it threads very slightly. Remove, add soda. Pour over 4 quarts pop-corn. Shape. Roll in wax papers.

MAPLE BALLS

1 c maple syrup
½ c sugar
½ c cocoanut

Boil until it threads. Pour over 4 qts of corn, as in above recipe.

POP-CORN SQUARES

Put corn through food-chopper. Add corn ball syrup to hold it together. Roll on greased paper with rolling pin into ½ in. sheet. When cool, cut in squares

MAPLE FONDANT

1 lb maple sugar
1 c water

Boil to 238 deg., or till it forms soft ball in cold water. Pour on to a platter. Cool and beat. Used in stuffed dates with nuts or for centres to dip in chocolate.

FRUIT PASTE

½ c chopped dates
¼ c chopped raisins
½ c chopped figs
1 c chopped walnuts

Mix all together and press into oiled pan. Cut and roll caramel in papers or roll into balls, dusting with sugar.

SALTED PEANUTS

Heat the unroasted, shelled peanuts in a warm oven. Remove the jackets. Plunge in boiling oil. Boil till brown. Dry on brown paper salting as soon as spread on the paper.

CHOCOLATE CRACKERS

Oyster crackers or cracker fingers dipped in sweetened coating chocolate and hardened, give a confection or sweet cracker to use for a dessert.

BUTTER SCOTCH

2 c AirlinE Honey
2 c brown sugar
3 heaping tsp butter
2 tbsp vinegar
¼ tsp soda
2 tsp lemon extract

Boil honey, sugar and vinegar untilit hardens when dropped into water (270° F.); stir in the soda extract and butter; pour in buttered tins to cool.

RAISIN AND PEANUT PASTE

1 c raisins
1 tsp salt
½ c peanut butter
3 tbsp sugar

Wash raisins, put through chopper twice and mix all ingredients. Roll into small balls and dust with mixture of 2 tbsp sugar and 1 tbsp cornstarch.

SOUR MILK RECIPES

Buttermilk with ½ tsp. shortening for each cup may be substituted for sour milk.

Sour milk should always be beaten with egg beater before measured.

STEAMED GRAHAM BREAD

3 c graham flour
1 c barley flour
3½ tsp soda
1 tsp salt
1 c molasses
2½ c sour milk.

Mix as brown bread. Steam 3 hours at least.

COTTAGE CHEESE

One qt sour milk. Heat till lukewarm then add 1 qt. warm water. Strain through cheese cloth. When liquid has drained out, moisten the curd with melted oleo or some cream and salt to taste. Shape into balls.

NUT BREAD

1½ c sour milk
4 c barley flour
½ c sugar
1 c nut meats
1 tsp soda
1 egg
1 tbsp fat
¾ tsp salt
2 tsp baking powder

Bake 45 to 60 ms.

RAISIN BREAD

1 c entire wheat flour
¾ c ground oatmeal
1 c sour milk
1 c raisins
1 tsp soda
1 tsp. baking powder
½ tsp salt

Bake 45 ms.

GRAHAM MUFFINS

1 c graham
1 c sour milk
½ tsp. salt
1 c white or barley flour
¾ tsp. soda
1 tbsp shortening
3 tbsp molasses or sugar

SOUR MILK GRIDDLE CAKES

2 c sour milk
1 tbsp sugar
1¼ tsp soda
1 egg
½ tsp salt
2 to 2½ c flour

One c wheat flour and 1 c barley flour, or 2 c barley flour may be used. Half buckwheat, also good.

SOUR MILK GINGERBREAD

1 c molasses
½ tsp salt
½ tsp cinnamon
1 c thick sour milk
1½ tsp soda
1 tsp ginger
2⅓ c flour

Barley flour may be used entirely with fine results.

SPICE CAKE

⅓ c shortening
1 c sour milk
1 tsp soda
¼ tsp clove
¼ tsp allspice
1 c sugar
½ tsp salt
2½ c flour
1 tsp cinnamon
Grating nutmeg
1 c raisins

BARLEY MOLASSES COOKIES

¼ c shortening
½ c molasses
1 c white flour
1 tsp soda
1 tsp ginger
¼ c sugar
½ c sour milk
½ c barley flour
½ tsp salt
½ tsp cinnamon

Drop cookies, to be baked in quick oven.

SOUR MILK BROWN BREAD

1 c corn meal
1 c barley
1¾ c sour milk
¾ tsp soda
1 c ground oatmeal
¾ c molasses
½ tsp salt
½ c raisins

Steam 2½ hrs. in small molds or 3 hrs. in one mold. Raisins may be omitted.

SOUR CREAM DRESSING

1 c sour cream
1 tsp lemon juice
1 tsp sugar
Paprika
½ tsp salt

Beat cream 5 ms. with wire whisk or egg beater, gradually adding other ingredients. This gives a foamy cream dressing, delicious for cucumbers or lettuce.

HOW TO RENDER FATS

The trimmings and fats purchased with meats should always be saved and used. The fats obtained in cooking meats, especially chops, sausage and all waste must be utilized.

TO RENDER FAT:—

To render or "try out" fats, cut in small pieces. Place in a heavy pan in a slow oven and cook several hours. The use of the double boiler on top of range is often recommended and avoids any danger of burning but takes a longer time. When fat is melted and tissues or cracklings are crisp, strain fat through cheese cloth.

To lessen strong flavors fat is rendered with equal parts of water and thus the flavor is washed out. Cool, and allow the fat to harden on top. Remove and reserve for use.

TO CLARIFY:—

Fresh fats will be clarified as rendered but when not fresh, or very strong, or mixed kinds are used, a few slices of raw potato may be added. The most satisfactory method is to use 1 c skimmed milk to 2 lbs fat in place of the water suggested above.

BLENDED FATS:—

Often home rendered fats are two hard to be of the best consistency for shortening. Then blending is recommended.

1. Melt 1 c beef or mutton drippings with ½ c lard or similar commercial fat.
2. Melt 1 ½ c beef or mutton fat with ½ cooking oil. In either method mix thoroughly and cool, stirring occasionally to avoid separation.

TO EXTEND FAT FLAVORS:—

When butter substitutes are used in soups, sauces, vegetables or other hot dishes, the characteristic flavor of butter may often be obtained if a small amount is added just before serving.

HOW TO MAKE SOAP

5 lbs. lukewarm, clarified grease — 1 lb can lye
3 pts cold water — ¼ c ammonia
¼ c powdered borax — ½ c sal soda

Fats unfit for food or frying purposes may be clarified and used for soap. Dissolve lye and sal soda in cold water over night. When cold, slowly add the melted fat, stirring constantly. Best results are obtained if fat is strained through cheesecloth.

Dissolve borax in ⅓ c cold water and add with ammonia to first mixture. Stir until about as thick as molasses, which will be about 20 or 30 minutes. Pour into paste board boxes lined with heavy paper. Cut in pieces before it is two hard and store until well dried. This makes 8 lbs. of soap.

NOTE:—The sal soda makes a more cleansing soap also softens the water and therefore yields more suds. The Ammonia and Borax may be increased to ½ c each with good results.

HOW TO PRESERVE EGGS

During April and May, when eggs are reasonable in price, the thrifty housekeeper may preserve them to be used for cooking purposes during the winter months when eggs are double in price.

9 qts. of boiled and cooled water.
1 qt. of water glass.
15 doz. absolutely fresh eggs.
5 gal. jar or crock with tight fitting cover.

Handle eggs carefully to avoid cracking. The liquids should be mixed in this proportion and the eggs may be added from time to time as they are obtained. Eggs may be removed for use at any time.

Water glass or silicate of sodium may be purchased at many grocery stores, some drug stores, and chemical companies.

COLD PACK CANNING

ADVANTAGES:—

All vegetables, fruits and some meats may be canned by this method satisfactorily; texture, taste and color being preserved. If all materials are in proper condition one is assured that the products will keep.

GENERAL DIRECTIONS

1. Use well selected products; not over ripe and just gathered if possible.
2. To scald—to dip into boiling water:—using a wire basket or cheese cloth bag.
3. To blanch—to boil for the time directions state.
4. To cold dip—to plunge into cold water:—using wire basket or bag as when scalding.
5. Always fill jars to overflowing with liquid.
6. Boiling or sterilizing outfit must have false bottom to raise jars slightly and avoid breakage. When this is made of wood, never use soft pine.
7. Use enough water in kettle, boiler or outfit to cover jars to the necks.
8. Cover outfit tightly and bring water to the boiling point.
9. Count all cooking times from this point.
10. At the end of boiling periods, remove jars, tighten covers and invert, avoiding drafts till cool. This tests leakage possibilities in jars, rubbers or covers.

VEGETABLES

METHOD:—

1. Wash carefully.
2. Scrape, cut or prepare as kind demands.
   Examples—Carrots, scraped.
   Asparagus or String Beans, cut.
   Peas, shelled.
3. Blanch or scald according to time table.
4. Cold dip.
5. Peel if kind demands.
   Examples—Tomatoes and beets.
6. Pack in jars.
7. Fill with cold water and use 1 tsp. salt to each quart.
8. Adjust **new** rubbers, and tops to partially seal. (If spring tops are used place the first clamp in position and leave the second clamp **up** instead of in position to seal tightly. If screw tops, screw down using thumb and little finger only. If lacquered tops,—place in position with clamp provided.
9. Cook in hot water outfit according to time table.

FRUITS

METHOD:—

1. Wash carefully.
2. Scald when time table directs.
3. Cold dip, if scalded.
4. Peel if kind demands.
   Example—Peaches.
5. Pack in jars.
6. Fill with syrup which has been cooled.
7. Adjust new rubbers and tops to partially seal
8. Cook in hot water outfit according to time table

SIZE OF JAR. Quart is used in above. In most cases pint cans require practically the same time—a few minutes less with fruits.

SYRUPS FOR FRUITS

General Rule:—3 parts sugar to 2 parts water.

Thin syrup. Heat the above to boiling point.

Medium syrup. Boil the above 3 minutes.

Thick syrup. Boil the above 6 minutes.

EXAMPLES:—

Thin syrup—peaches, pears, apples.

Medium syrup—blackberries, raspberries, sweet-cherries.

Thick syrup—gooseberries, currants, sour cherries.

The density of the syrup to be used depends on the taste of the family. Many families prefer medium syrup for all fruits except currants and sour cherries which always require thick syrup.

Some fruits may be canned without sugar using water in place of syrup, the sugar being added to taste when fruit is opened. The flavor is not as good, however as when syrup is used.

SPECIALS

CANNED CORN

Cut corn from cobs, scraping out all the milk from cobs. Add water to cover and boil 12 ms. Pack in jars with ½ tsp. salt and sugar to each quart. Boil the cobs in water to partly cover and use this liquid to fill jars to overflowing. Partially seal jars and cook 1 hour as all cold-pack vegetables.

TOMATO MINCE MEAT

8 qts green tomatoes
5 lbs sugar
1 c suet or drippings
1 c vinegar
2 tbsp clove
8 qts apples
2 lbs chopped raisins
3 tbsp salt
2 tbsp cinnamon
1 nutmeg

Chop tomatoes, drain, scald for 10 ms. in water to partly cover and drain again. Add apples, dropped, not pared, and all ingredients.

Cook till tomato is about the color of the raisins and the apple is very soft. Put into jars and seal while very hot.

CRANBERRY SAUCE

1 qt cranberries
1 c AirlinE honey
2 c water
2 tbsp cornstarch
¼ tsp soda

Put berries, water and soda in saucepan. Bring to boiling point. Pour off this water and add ¾ c fresh boiling water. Cook 10 ms. Strain, reheat, add honey and cornstarch (mixed in ¼ c more cold water.) Cook 15 ms. Remove from range and cool.

JELLIES AND JAMS

APRICOT PRUNE JAM

25 prunes 25 apricots 1 c sugar

Cover with cold water. Soak over night. Then cook till very soft. Mash slightly, add sugar, slowly cook till dissolved and quite dry.

CARROT MARMALADE

2 cooked carrots 4 c sugar 2 lemons

Wash and scrape the carrots and cook in boiling water until tender. Drain and put through the meat-chopper. Add the juice and grated rinds of the lemons, and the sugar. Cook slowly about half an hour or until the consistency of marmalade. This quantity will fill six jelly-glasses. It tastes like a fine orange marmalade.

KARO APPLE JELLY

Juice 2 parts Sugar 1⅛ Crystal White Karo ⅜

In apple jelly use juice and sugar in the above proportion, instead of equal amount of sugar.

CRANBERRY JELLY

2 qts cranberries 1 qt water

Boil ten minutes, and strain in vegetable strainer. Measure and add one-half the measurement of sugar to juice and pulp. Boil ten minutes. Pour into tumblers and add wax when cold and set.

BAR-LE-DUC CURRANTS

Wash and stem white or red currants. Use equal weights of fruit and strained honey. When honey is hot, add fruit; simmer four hours. Skim out the fruit and put in small tumblers and cook syrup until thick, then fill glasses. Cover when cold with white paper and wax. Fruit may be seeded but this is much work.

APPLE BUTTER

Slice 4 lemons, cover with water and let stand over night. In morning put into kettle with 8 lbs. apples, pared, cored and sliced. Cook 1 hr. Add 3 lbs. sugar. Cook slowly with frequent stirring 1½ hrs. or till of proper consistency. Pack while hot into sterilized jars and cook by cold pack method in hot water outfit 10 ms. This last cooking in hot water outfit may be omitted and jars sealed with paraffine, but if followed to assure the keeping and not molding of the butter, it is best.

APPLE AND CRANBERRY JELLY

1 pk apples 1 qt cranberries

Cook separately till soft with small amount of water. Strain, combine juices and boil 20 ms add ½ as much more sugar as juice. Boil tell it jells.

DRYING OF FRUITS AND VEGETABLES

As a feature of food conservation the drying of vegetables and fruits is now recommended because large quantities may be stored in a small space and in inexpensive receptacles. Products otherwise wasted may be saved for winter use. This is most practical for the house where a root cellar and vegetable closets are not feasible in which to store fresh winter vegetables.

THREE METHODS OF DRYING

1. Sun drying.
2. Drying by artificial heat.
3. Drying by air and air-blast, (as an electric fan).

All methods require time and the large water content of the product must be thoroughly dried out, then before using, with a long soaking (12 to 24 hrs) this is replaced.

Sun drying is many times unsatisfactory because of the uncertainty of weather conditions.

Artificial heat drying is satisfactory in an oven in which heat, can be controlled (gas or electric) and the temperature should be 110 degrees F. when work is started, and increased to 140 degrees, **never** over 150.

Product is placed on large baking sheets and time required will vary from 3 to 7 hrs.

Homemade driers or racks with low-wooden sides and fine wire bottoms are often suspended above a wood or coal range and this temperature of 120-140 degrees thus obtained.

Commercial driers may be purchased and their directions followed.

When the third method is employed products are put on trays or racks so placed as to allow good air circulation and with an electric fan the average time required, is about 24 hrs.

Often the methods are combined, and sun and air both used, or, again, partly dried with heat and finished with air method. In all cases complete drying is necessary. To test, place the dried product in jar or box for storage and with it a crisp cracker. After 12 hrs. remove cracker and if not still crisp the presence of moisture is shown and drying must be continued before storing fruit or vegetables.

Shell beans, corn and peas are the vegetables and apples, peaches and berries the fruits most successfully treated by drying methods and most practical in either country or city homes.

Mazola - the oil from Corn - showing housewives new and better ways of preparing food

The necessity for saving animal fats - butter lard, suet - and the scarcity of olive oil, have opened up an entirely new field for American cooking.

Today thousands of housewives are using Mazola for frying, sauteing, shortening and salad dressings - not only because it comes from an edible vegetable source (Indian Corn) and is so wonderfully economical - but because it is showing the way to more delicate, more wholesome food.

Send for the Mazola book of proven recipes - free - upon request.

AirlinE

ABSOLUTELY **HONEY** PURE

Honey for the Children

LIBERTY CANDIES
Honey Caramels

2 cups AirlinE Honey
1 cup chopped nuts
1 square Baker's chocolate
1 teaspoon vanilla

Boil the honey and chocolate shaved fine until it makes a hard ball (260 degrees), remove from fire, stir until it thickens, add the vanilla and chopped nuts and pour into a buttered, shallow pan to cool. When nearly cold mark into squares.

Honey for Cooking

PUMPKIN PIES

1 c stewed and sifted pumpkin
2-3 cup AirlinE honey
1 egg
2 teaspoons flour
1 teaspoon salt
1 teaspoon ginger
1 teaspoon cinnamon
1½ cups sweet milk

Blend the pumpkin and honey, beat in the egg, mix the spices, flour, and salt with a little of the milk, and add, and then stir in the rest of the milk. Bake in a crust made of ¼ part cornmeal.

"The Home of the Honey Bees"

Getting the Best of a Bean

You, as a user of Vanilla Extract, know that there are some kinds that flavor better and go further than others.

You know that the size of the bottle is of no importance.

It is Strength and Flavor of what's inside.

MINER'S VANILLA EXTRACT goes further in use than most others. It is made from the best Vanilla Bean grown. It has undergone a process of ageing in wood, which gives it that smooth, mellow flavor. Taste it, and then taste others. That is all we ask.

Sent anywhere by Post, prepaid, upon receipt of price, 50 cts. for a 4 oz. bottle.
